EXP.NO:2	Zoho Creator Setup and Platform Exploration

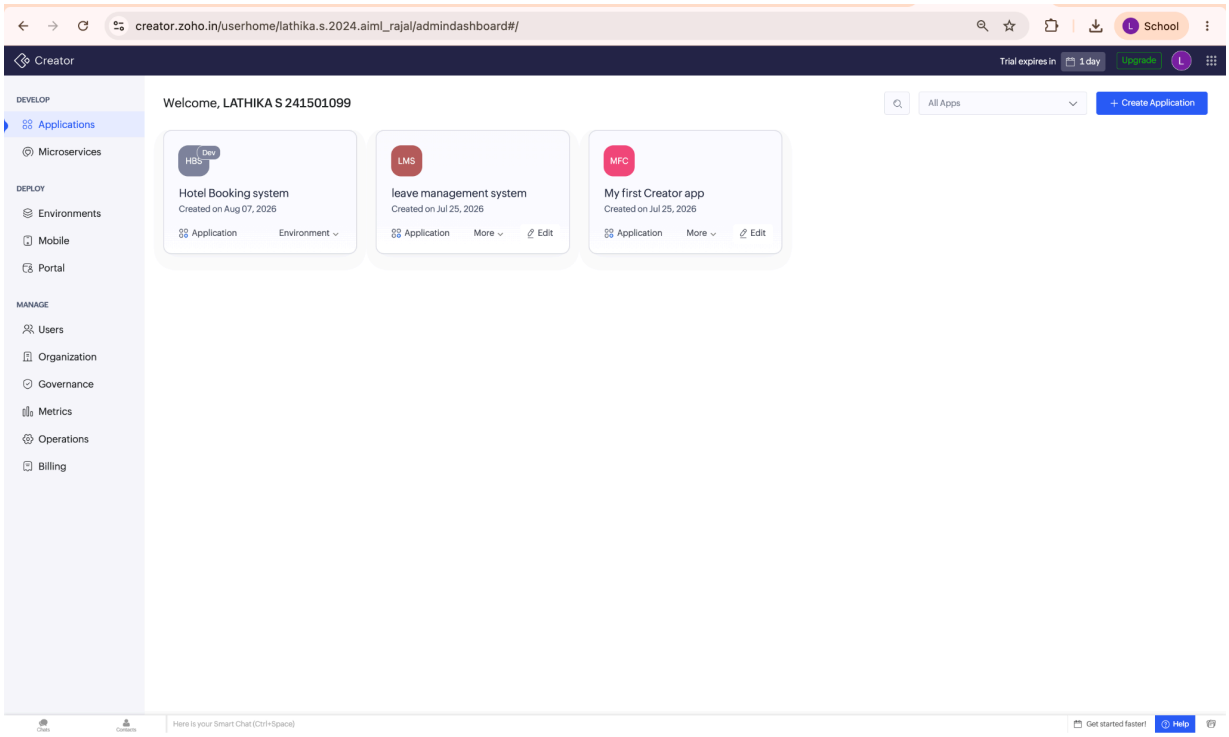

Aim:

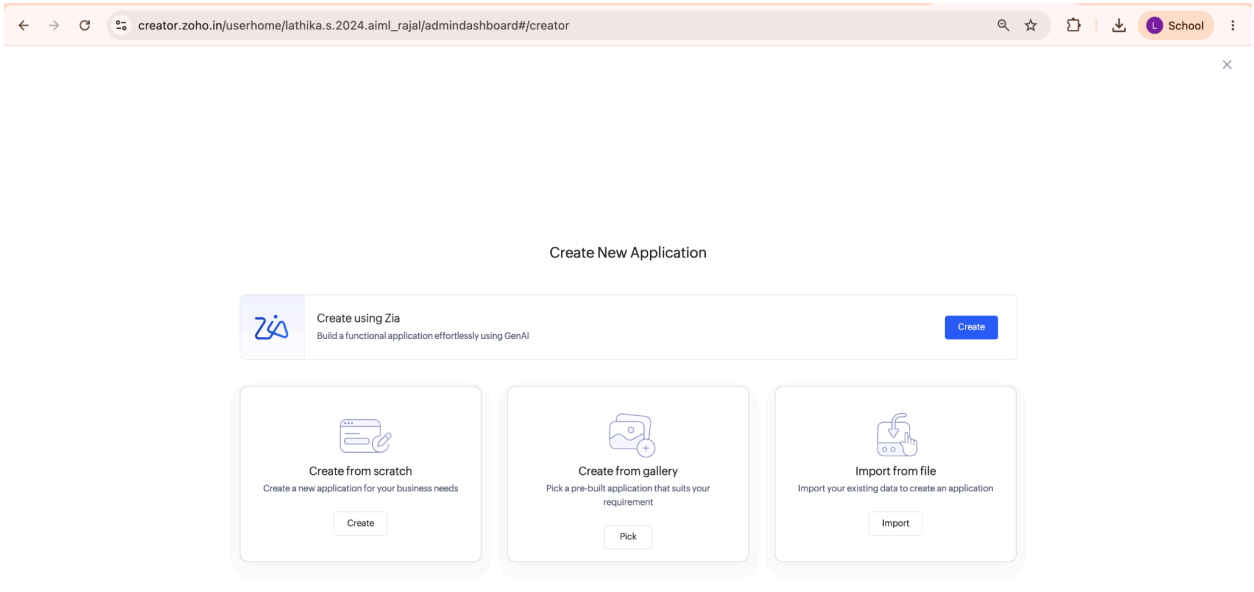

To create a Zoho Creator account, explore its interface, and understand the basic features required to develop a **Hotel Booking Management System.**

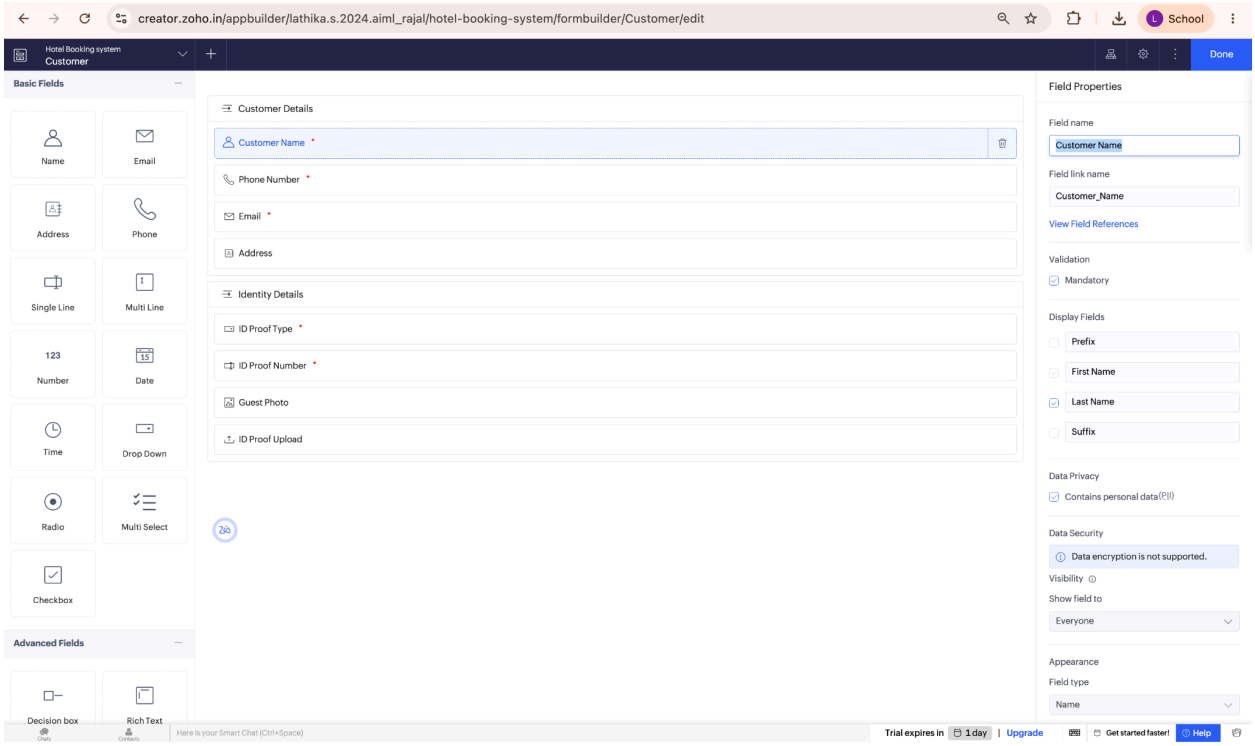

Procedure

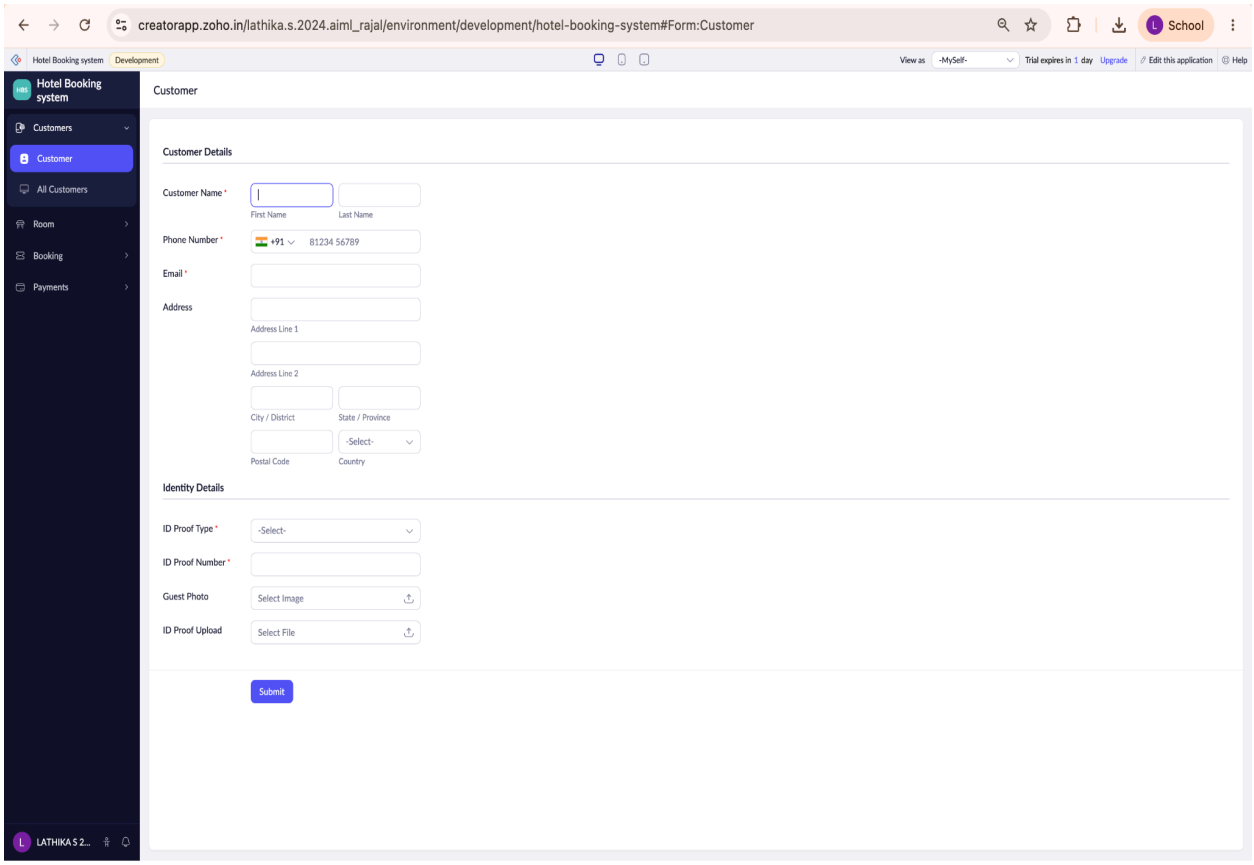

1. Opened the Zoho Creator website and signed in.
2. Created a new **Blank Application**.
3. Named the application **Hotel Room Booking**.
4. Opened the application dashboard.
5. Created a new form named **Customer Details**.
6. Added fields such as **Name, Email, Address, Phone Number, Date, and Room Type**.
7. Explored the Dashboard, Forms, Reports, Pages, Workflows, and Settings sections.
8. Saved the application and verified that the form was created successfully

Observation

- Zoho Creator account was created successfully.
- A **Hotel Room Booking** application was created.
- The **Customer Details** form was designed using drag-and-drop fields.
- The platform interface and basic development tools were explored.

Conclusion

The experiment helped in understanding the Zoho Creator interface and creating a basic **Hotel Room Booking** application. The platform made it easy to build forms using drag-and-drop components with minimal coding.
