# Exp 11: Application Deployment and Migration

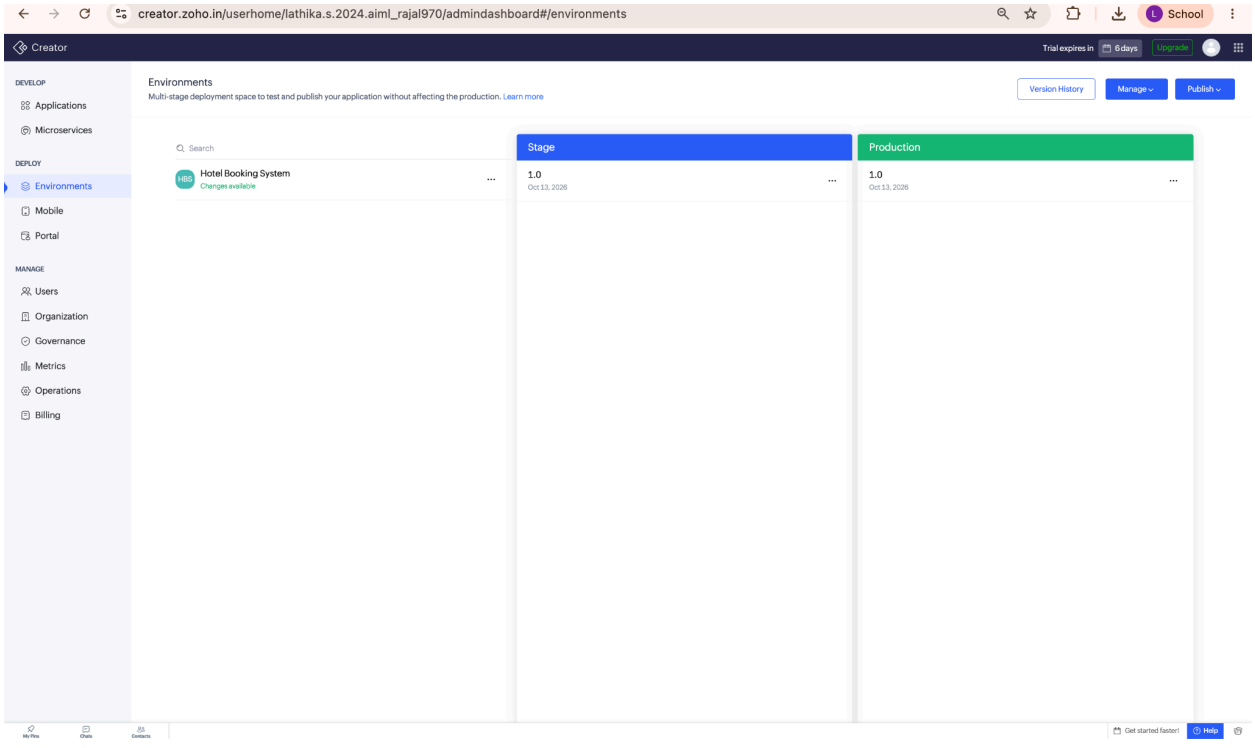

## Aim

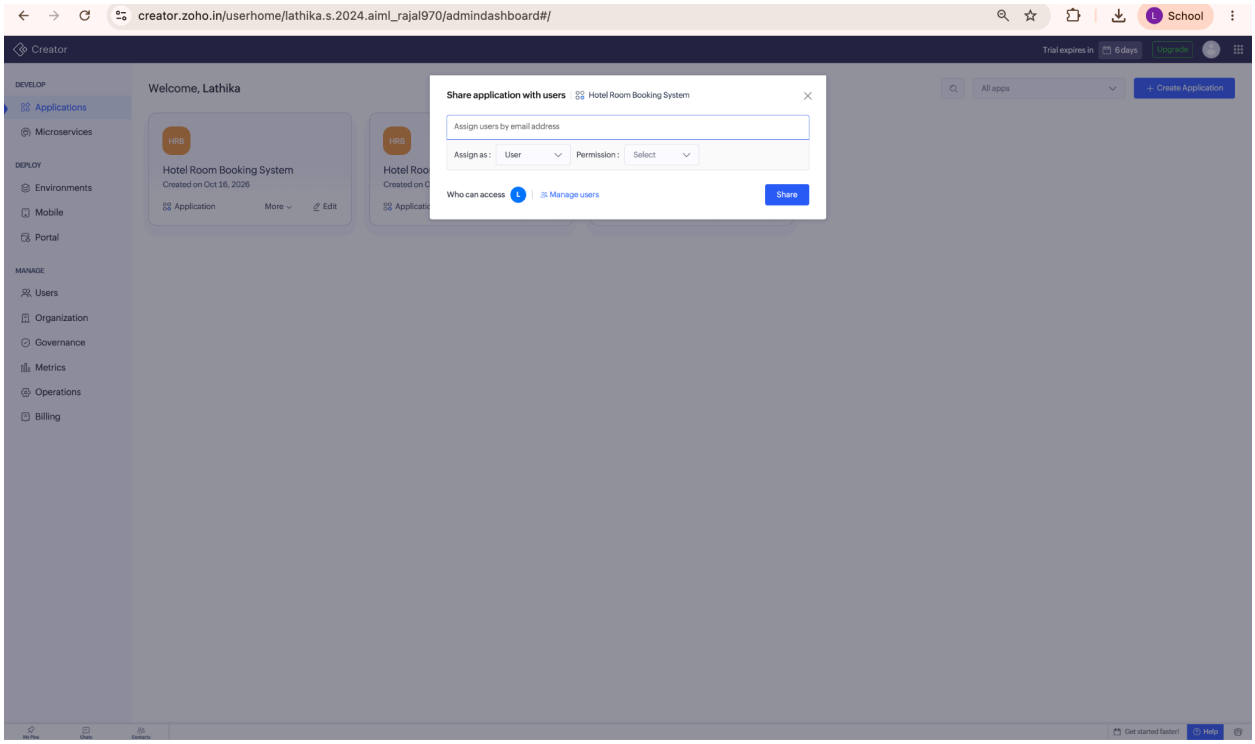

To study the application deployment and migration process in Zoho Creator using the Hotel Room Booking System.

## Procedure

1. Log in to Zoho Creator and open the Hotel Room Booking System application.
2. Review the application components, including forms, reports, dashboards, and workflows.
3. Open the application settings and explore the available application sharing and deployment options.
4. Use the **Share** option to understand how application access can be provided to authorized users.
5. Explore the application export or backup option, if available, to understand how the application can be migrated.
6. Review the available import or migration options for transferring an application to another environment or account.
7. Verify the application components after deployment or migration, if the process is performed.
8. Capture screenshots of the application and the relevant deployment, sharing, or export settings.
