Exp 12: Security and Governance in Zoho Creator

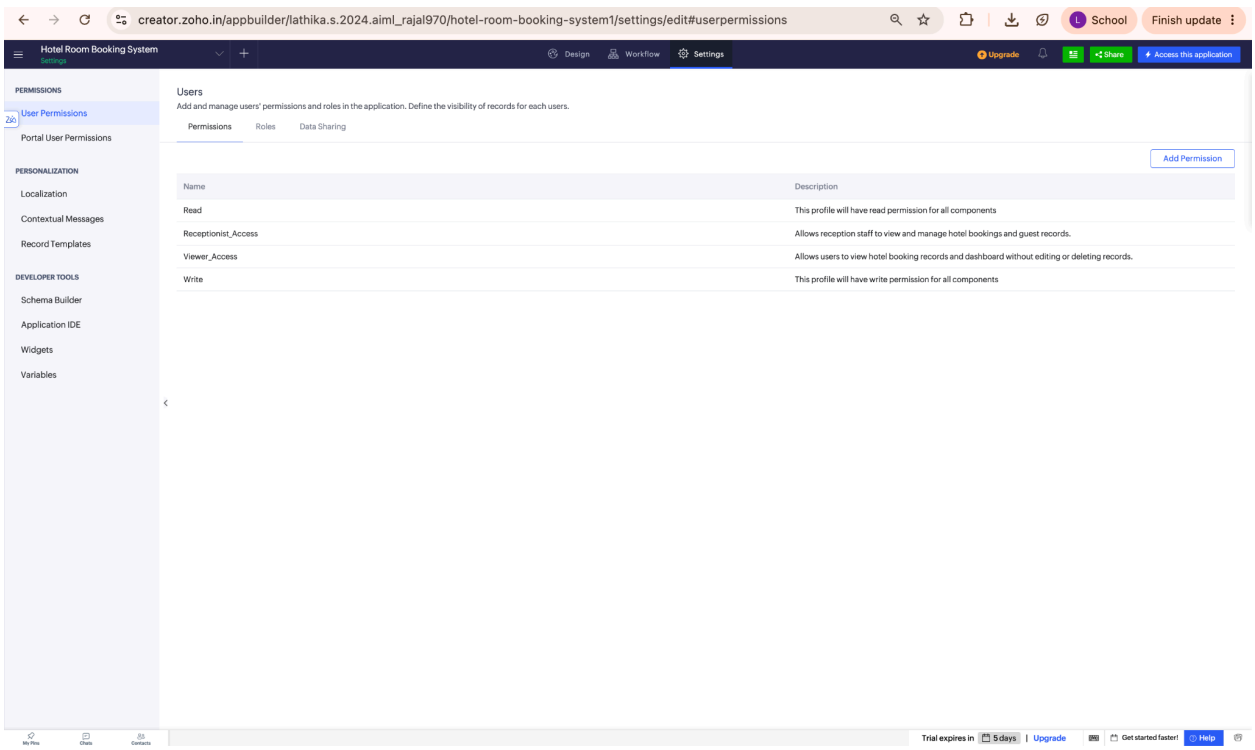

Aim

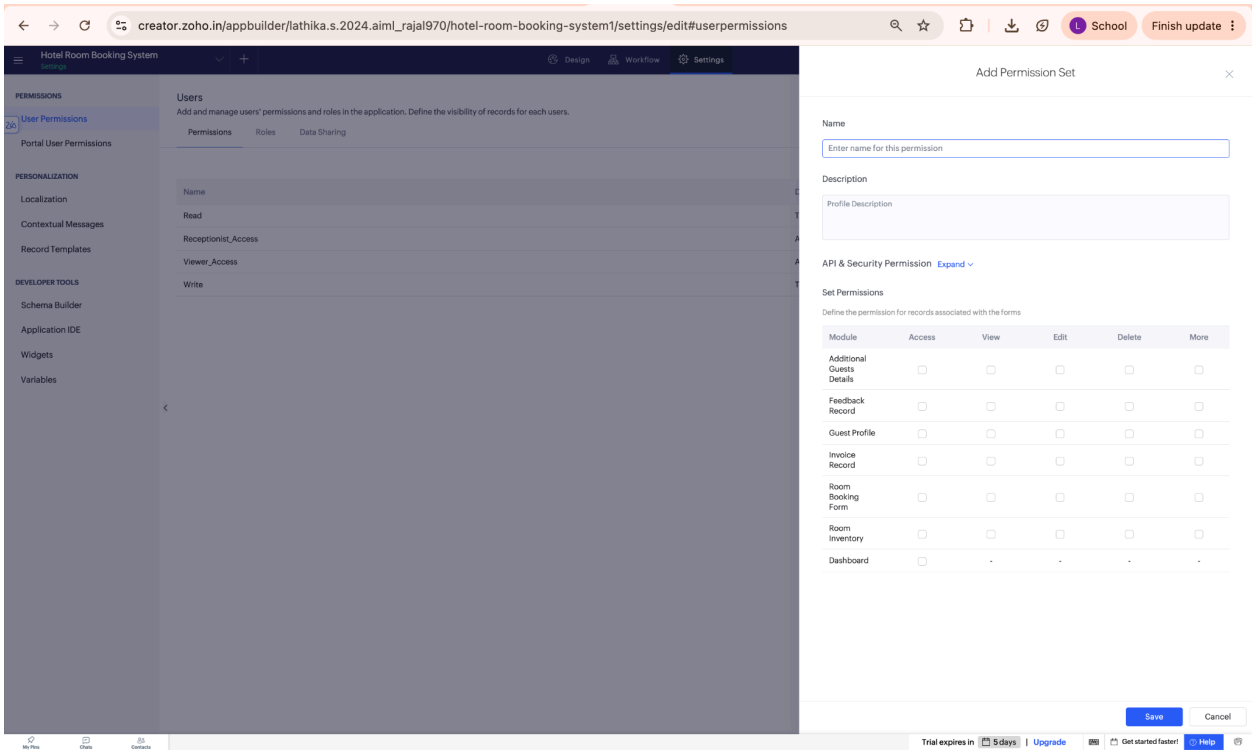

To study the security and governance features available in Zoho Creator and understand how they protect the Hotel Room Booking System and its data.

Procedure

1. Log in to Zoho Creator and open the Hotel Room Booking System application.
2. Navigate to **Settings → User Permissions**.
3. Review the available permission sets, such as Read and Write, and examine the access granted to each application component.
4. Navigate to the **Roles** section and review the CEO, Receptionist, and Viewer roles.
5. Examine the access permissions for forms, reports, and dashboards.
6. Review the application-sharing options and understand how access can be granted to authorized users.
7. Explore the available API and security permission settings, if accessible.
8. Capture screenshots of the permission sets, role hierarchy, and relevant security settings.
