EXP 6: WORKFLOW AUTOMATION USING DELUGE

Aim

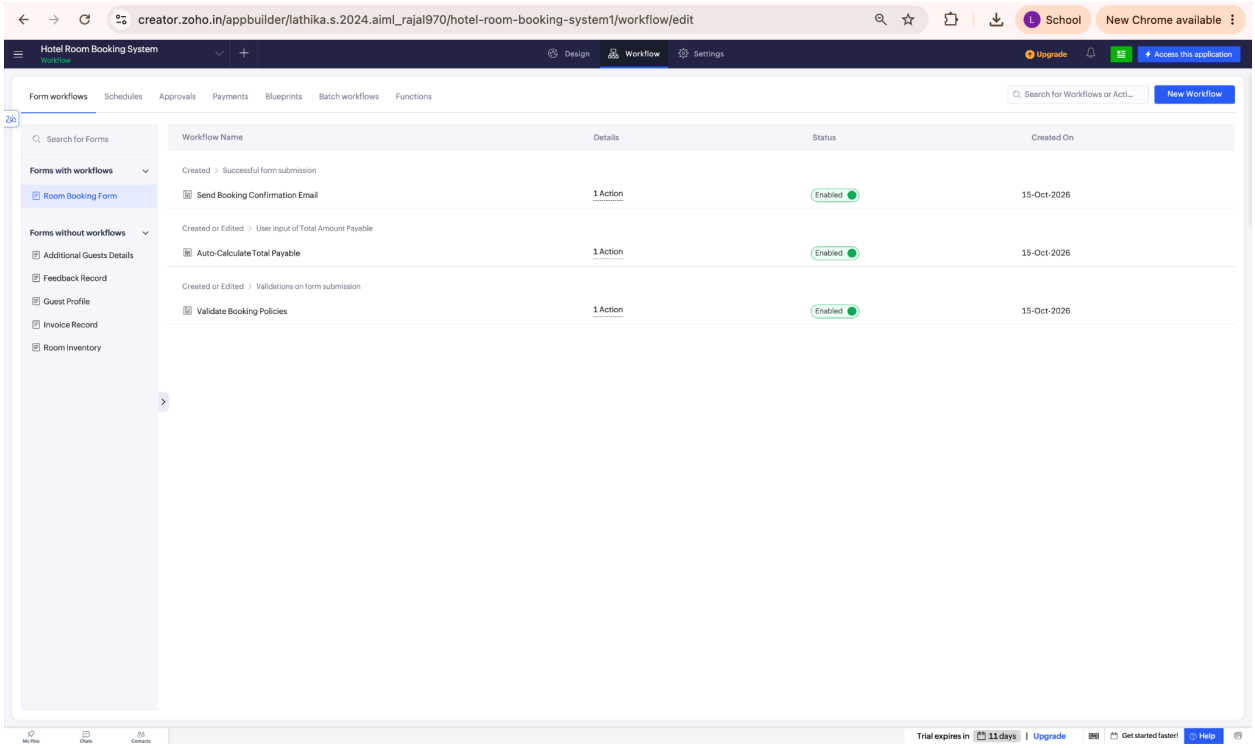

To implement workflow automation using Deluge scripting in Zoho Creator for the Hotel Room Booking System.

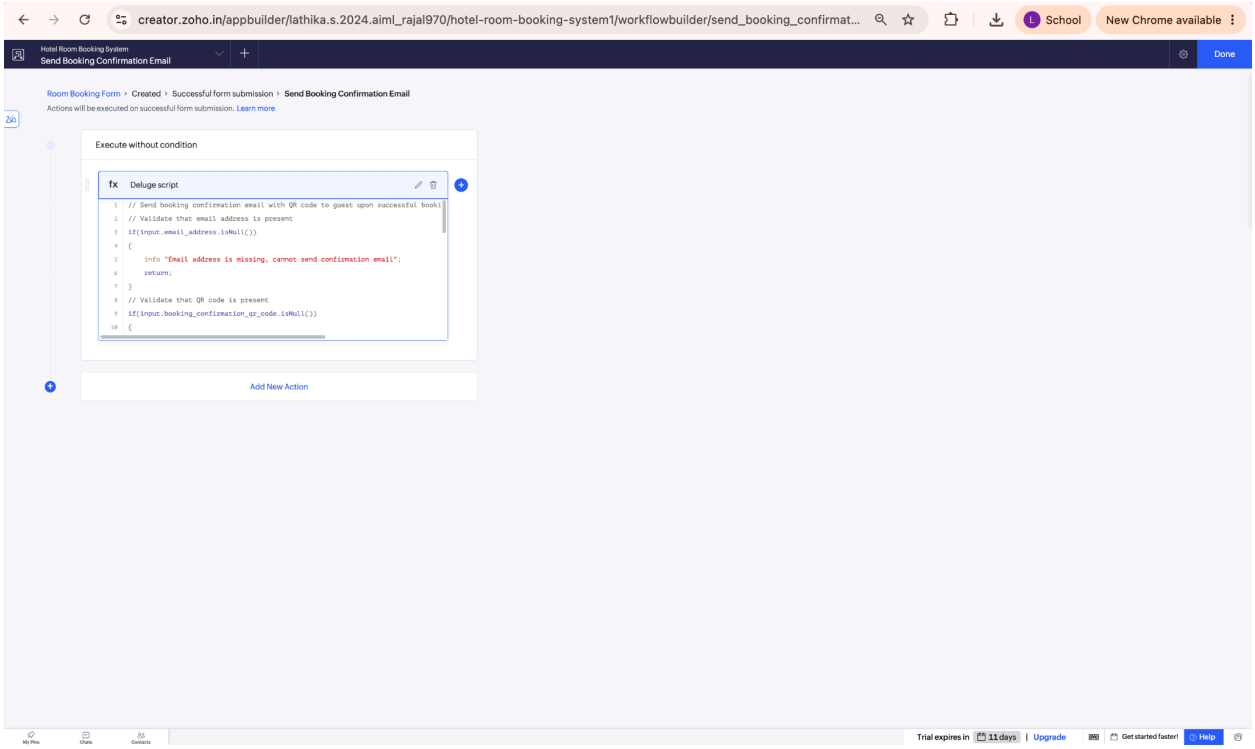

Software Required

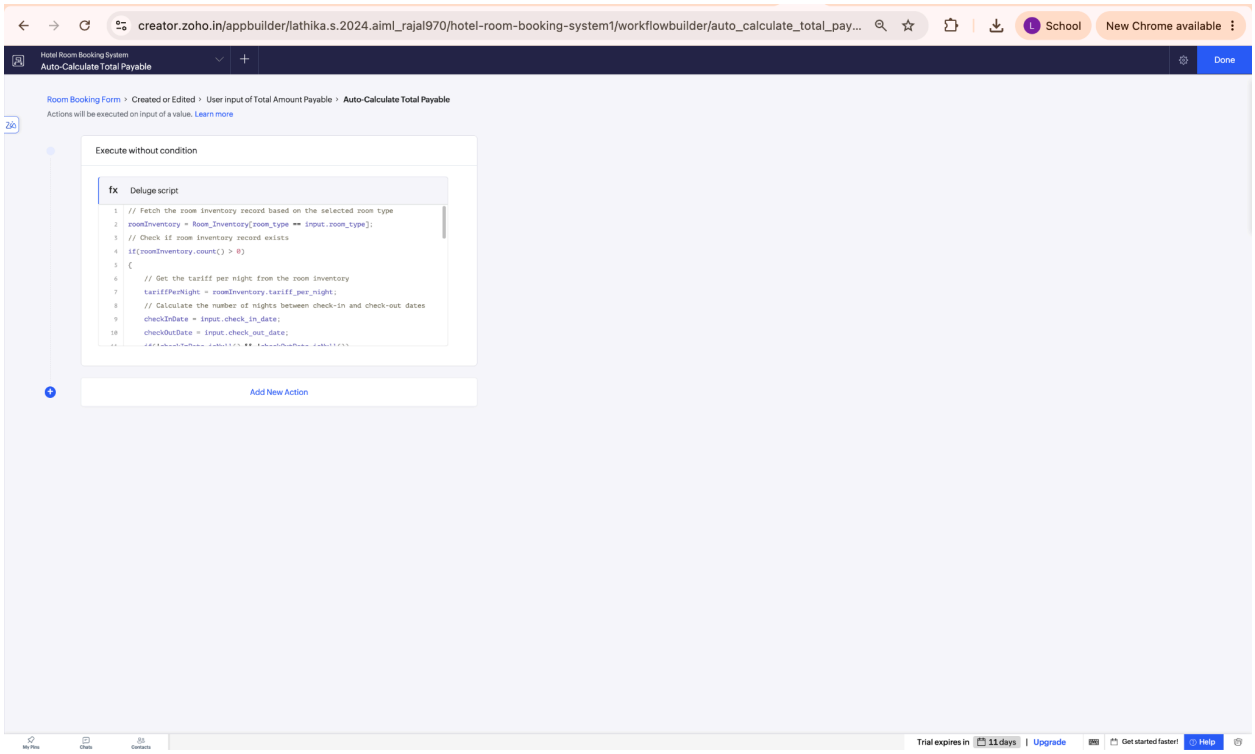

- Zoho Creator
- Web Browser
- Deluge Script Editor

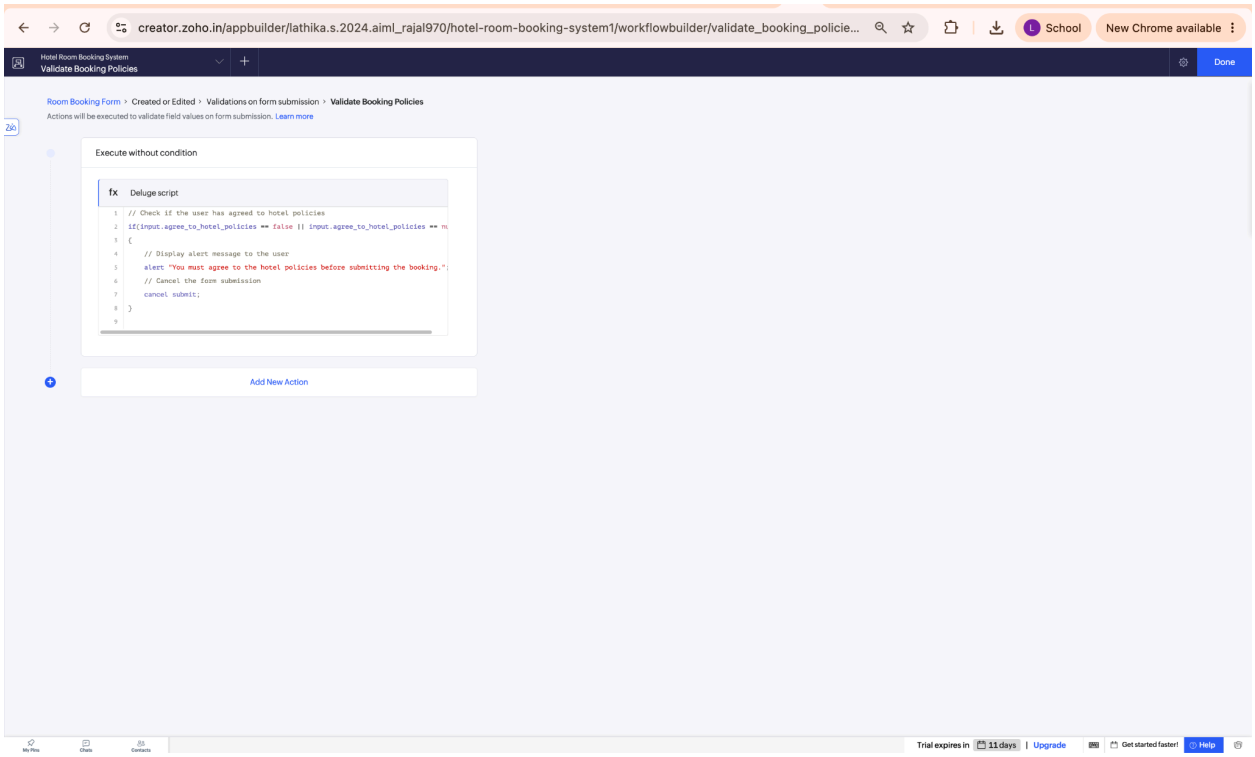

Algorithm

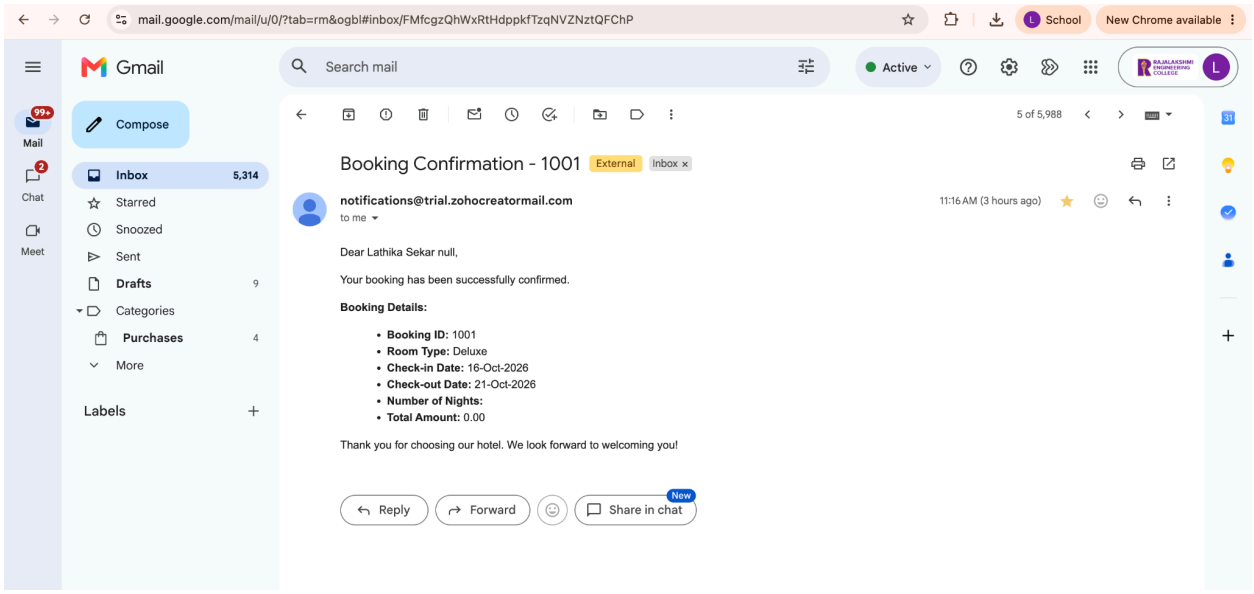

1. Open the Hotel Room Booking System in Zoho Creator.
2. Navigate to the Workflow section.
3. Create or open the required workflows.
4. Write Deluge scripts to automate booking calculations, email notifications, and booking validation.
5. Save the workflows.
6. Submit a test booking through the Room Booking Form.
7. Verify the workflow results.
